Birthday: 29 April 1999

Work authorization: Swiss MSc graduate; employment in high-skilled roles exempt from labor market priority requirement.

EDUCATION

Universität Zürich | MSc Data Science (Minor in Economics)
09.2021- 04.2026

Core Courses: Foundations of Data Science, Interactive-Visual Data Analysis, Fundamentals of People-Oriented Computing, Human-Computer Interaction, Network Science, Informatics, Database Systems

Huazhong Agricultural University (HZAU) | Economic Statistics, Bachelor of Economics
09.2017 - 07.2021

Core Courses: Business Data Mining, Intermediate Econometrics, Intermediate Microeconomics, Intermediate Macroeconomics, The Method of Data Analysis and Application, Probability and Statistics
Awards: Semester Excellence Award, Semester Academic Performance Award, Excellent undergraduate graduates

PROFESSIONAL EXPERIENCE

Data Scientist Intern
06.2025 - NOW

UNCHARTED GROUP GMBH, ZÜRICH

- Solely designed and deployed a **production-grade large-scale due-diligence GenAI agent system** combining web search, Firecrawl, PDF parsing, and LLM reasoning to extract structured information on companies, people, and financial products
- Developed **asynchronous scraping & processing modules** to automate multi-source data retrieval and document analysis at scale
- Integrated **fine-tuned custom NER models** and **zero-shot classification** to extract and canonicalize entities, enabling knowledge-graph-ready outputs
- Integrated **entity labeling** and **extraction results** into **knowledge graph** construction, supporting advanced analytics and reasoning use cases

Research Assistant
10.2024 - 03.2025

UNIVERSITÄT ZÜRICH, ZÜRICH

- Responsible for cleaning and organizing datasets from companies' statements using **web-scraped** data and utilizing **Python** for parsing and analysis of financial tables and textual data
- Assist with the application of machine learning models, such as **large language models (LLMs)**, decision trees, and text analytics for advanced data analysis tasks
- Contribute to strategic management research with a focus on multinational enterprise transformation, mergers & acquisitions, and corporate governance

Investment Analyst Intern
02.2021 - 03.2021

HANGZHOU HUPAN LICHENG INVESTMENT MANAGEMENT CO., LTD. (THE RIVERSIDE FUND), BEIJING

- Created dashboards and visual reports using **Tableau** to present findings on toiletries, small appliances, and low-alcohol industries, providing stakeholders with clear insights and strategic recommendation
- Developed **marketing strategies** for emerging brands by analyzing historical data performance and predicting future trends

Investment Intern
06.2020 - 08.2020

HUBEI ZHONGJING SHENGSHI INNOVATION INVESTMENT FUND MANAGEMENT CO., LTD., WUHAN

- Contributed to fund park planning by evaluating economic benefits and payback periods for various investment methods
- Conducted **independent research**, producing 15,000-word reports on the OLED panel, and the SaaS industry, employing data analysis to understand supply, demand, costs, pricing, and competition
- Assisted in revising **government investment documents** and created an industrial overview and investment plan for a city

Investment Banking Department Intern
03.2020 - 04.2020

CHINA INTERNATIONAL CAPITAL CORPORATION, BEIJING

- Solely completed a major mining assets reorganization **industry report**, using **data analysis** to evaluate competition and market dynamics
- Evaluated 24 companies' transactions using comparable company and transaction methods, calculating **PE and PB ratios**
- Conducted **SPAC** products research, using data visualization tools to analyze equity structure changes/transaction considerations/ valuations

PROJECT EXPERIENCE

Seeing is Healing: A Visual Interface for Supporting Clinicians with the Identification of Similar Patients
03.2025 - 09.2025

Master's Thesis in Universität Zürich, Supervisor: Prof. Dr. Abraham Bernstein & Dr. Oana Inel

- Conducted a **mixed-method user study** with clinicians (focus groups + survey) to uncover diagnostic reasoning practices and design requirements for decision support in rare-disease care
- Designed and developed an **interactive visual analytics system** enabling clinicians to explore patient similarity through timelines, attribute weighting, text panels, and rich patient-record comparisons
- Integrated feedback into the interface through **cognitive walkthroughs** with 10 users, identifying **usability issues** and translating them into design improvements
- Implemented a **human-in-the-loop mechanism** allowing clinicians to label similar patients, updating similarity scores to create more interpretable, trustworthy, and clinician-aligned model outputs

Spotify but Better

02.2025 - 02.2025

Full-stack Personal Project https://realtime-spotify-clone-pvca.onrender.com

- Built a **full-stack** music streaming application enabling users to play/pause, skip tracks, and adjust volume
- Developed an **Admin dashboard** to create new albums and songs, complete with secure authentication and role-based access
- Integrated **WebSockets** to display a **real-time chat** feature, including online/offline indicators, so users can communicate while listening
- Displayed **live user activity** to show what others are listening to, updating the interface in real time

YelpCamp Web Application

07.2024 - 10.2024

Full-stack Personal Project https://yelpcampdk.vercel.app

- Developed a full-stack web application for campground reviews using **React, JavaScript, Node.js, Express.js, and EJS templating**
- Integrated user authentication and authorization with **Passport.js** for secure user login and registration
- Implemented **CRUD** operations for campground listings and user-generated reviews
- Deployed the application on Vercel for seamless hosting and **MongoDB Atlas** for cloud database management

SKILLS

IT Skills: Python, FastAPI, C, JavaScript, TypeScript, SQL, jQuery, React, Node.js, Express.js, NPM, MongoDB, HTML, CSS, Power BI, Tableau, R, Stata, SPSS, SAS, EViews, Praat, Wind, Capital IQ, Wood Mackenzie, Pr
Languages: Chinese (Native), English (C1), German (B1)
